

ADJUSTABLE PROP LOCK™

(Patented & Registered Design)

The world's most advanced, reliable and secure prop lockout device. Lock out your adjustable props with the Flexiprop Adjustable Prop Lock™, making them safe and secure for all industries.

Adjustable to suit most brands of Acrow or form work props on the market. The Adjustable Prop Lock™ is fully adjustable using a stainless steel screw thread and tightened into position with the cam lock handle. Once locked the Prop Lock™ prevents any unauthorised use.

- Adjustable to fit most common props
- Affordable, durable and reusable
- Provides the next level of safety
- Made from impact resistant nylon and stainless steel
- Quick and easy to fit or remove in less than 10 seconds
- Can be placed on props that are already erected without them being dismantled
- Able to be locked out by single or multiple personnel
- Crafted to Australian standards

**FOR USE IN ALL INDUSTRIES AND SITUATIONS
WHERE ADJUSTABLE PROPS ARE CURRENTLY USED**

MINING \ CONSTRUCTION \ CIVIL \ RESCUE \ SAFETY

UNSAFE AND AN ACCIDENT WAITING TO HAPPEN
